## INTERESTS

---

Econometrics / Mathematical Statistics / High-Dimensional Statistics / Statistical Learning / Time Series / Panel Data / Finance / Macroeconomics and policy

## PEER-REVIEWED PUBLICATION

---

1. “Time Averaged CCE” with Yiannis Karavias and Joakim Westerlund. Forthcoming- *Oxford Bulletin of Economics and Statistics*
2. “On Robustness to Random Breaks in Panel Data,” with Joakim Westerlund (2026). *Oxford Bulletin of Economics and Statistics*
3. “Coefficient-by-Coefficient Estimation of Breaks in Panel Data Models” (2025). *Journal of Econometrics*
4. “CCE under Non-Random Heterogeneity” with Joakim Westerlund (2024). *The Econometrics Journal*
5. “Estimation of Panel Data Models with Random Interactive Effects and Multiple Structural Breaks when T is Fixed” with Joakim Westerlund (2023). *Journal of Business & Economic Statistics*
6. “CCE in heterogenous fixed-T panels” with Joakim Westerlund (2022). *The Econometrics Journal*

## WORKING PAPERS

---

1. “Estimating and Testing Kinks in Panel Data Models.” Single Author.
2. “Imputation of Missing values in Panel Factor Models and Nowcasting state level GDP” with Tilman Bretschneider.
3. “Estimating Multi-Dimensional Group Structures In Panel Data Models With An Application To Asset Pricing.” with Joakim Westerlund. *Journal of Financial Econometrics*
4. “Generally Shifting Coefficients in Interactive Effects Panel Data Models And The COVID–19 Regime” with Joakim Westerlund. *Revise and Resubmit in Journal of Business & Economic Statistics*

## WORK IN PROGRESS

---

1. “Group Shrinkage estimation of kinks” with Yiannis Karavias.
2. “Alpha testing in heterogenous panels.” with Rosnel Sessinou.
3. “The Cost of Holding a Markowitz Portfolio” with Rosnel Sessinou and Deniz Erdemlioglu.
4. “Estimation and Testing of Dense Regressions” with Rosnel Sessinou.
5. “Estimation of Latent Groups in Panel Data Models when T is fixed” with Joakim Westerlund and Ali Mehrabani.
6. “Debiased Lasso With Time-Varying Parameters” with Rosnel Sessinou and Stephan Smeekes.
7. “Dynamic Variable Selection” with Joakim Westerlund and Rosnel Sessinou.
8. “Time Averaged CCE in fixed N panels.” with Yiannis Karavias.

## TEACHING

---

### Örebro University

*August 2025 - Now*

- Inference Theory (Lecturer, masters course)
- Probability Theory (Lecturer, masters course)

### University of Liverpool

*August 2024 - August 2025*

- Public Economics (Co-Lecturer, masters course)
- Derivative Pricing (Lecturer, third-year bachelor course)

### Lund University

*August 2019 - August 2025*

- Deep Learning and Artificial Intelligence Methods (Lecturer, masters course)
- Econometric Theory (Lecturer, PhD course)
- Machine Learning from a Regression Perspective (TA, masters course)
- Advanced Machine Learning (TA, masters course)
- Foundations of Finance (TA, masters course)
- Advanced Econometrics (TA, masters course)
- Intermediate Econometrics (Lecturer, third year bachelor course)
- Econometric Theory (TA and Python support, PhD course)
- Working with Databases (Lecturer, masters courses)

### Lambda Data Science Society

*July 2022 - July 2024*

*Data Science Support*

### Lund University

*July 2018 - October 2018*

*Game Theory Research Assistant*

## SUPERVISION

---

**Tilman Bretschneider:** I am co-supervising Tilman. The thesis will be on matrix completion and factor PCA estimation.
